Benbi Benbi（笨比本比）

Founding AI Engineer · Agentic AI · Industrial Automation
Munich · benbi.benbi@example.com · linkedin.com/in/benbi-benbi-example

> I build AI agents people can rely on at work – from research to production.

WORK

Apr 2025 – present

Founding AI Engineer · Beispiel AI GmbH, Munich

- Multi-agent orchestration, RAG over customer documents, and CRM tool integrations
- Evaluation and regression testing: every change runs against 50 test cases
- Infrastructure: Azure, Bicep, Docker, CI/CD · Python and TypeScript

Jan 2023 – Mar 2025

Research Associate · TH Beispielburg, Beispielburg

- Designed a graphical modelling language (DSL) for data pipelines – published as GraphPipe
- 5 peer-reviewed publications, incl. ICEM 2024 (Bari) and ICEA 2023 (Singapore)
- Taught the exercise session of a required course for 200+ students (German & English)
- Supervised 3 theses · member of FBT technical committee 3.35

May 2022 – Sep 2022

Working Student, Quality Management · Knusper Snacks GmbH, Beispieldorf

- Replaced 12 paper checklists with Power Apps forms
- Automated approval and escalation workflows with Power Automate
- Trained around 30 shift leaders and staff

EDUCATION

Oct 2020 – Sep 2022

Master of Science, Industrial Engineering – Mechanical Engineering · Technical University of Musterstadt · Grade 1.8

Focus areas: Machine Learning · Data Analytics · Manufacturing Automation · Uncertainty Quantification

Thesis: Uncertainty Estimation for Multi-Label Neural Networks in Additive Manufacturing

Sep 2014 – Jun 2018

Bachelor of Engineering, Industrial Engineering · Chengdu Example University of Technology

SKILLS

Engineering	Python, TypeScript, Azure, Docker, CI/CD
AI & LLM agents	LLM agents, RAG, Evaluation, Machine Learning
Research	Uncertainty quantification, Domain-specific languages
Data & analytics	Time series analysis
Tools	Power Platform, SharePoint, Low-code
Other	Teaching

PUBLICATIONS

- GraphPipe – a graphical notation for modelling data pipeline deployment in production systems, Beispiel-Automatisierung 73(4) Apr 2025
- Segmenting repetitive process time series with few labels, ICEM 2024, Bari Aug 2024
- Evolvable digital twins for flexible production systems, Journal of Example Operations Research Jul 2024
- ModelPlus – component properties in early design of automated production systems, Beispiel-Automatisierung Jan 2024
- Multi-requirement decision-making under uncertainty for intelligent manufacturing systems, ICEA 2023, Singapore Oct 2023

LANGUAGES

Chinese (Native) · German (C1) · English (C1)

AWARDS

- Best Paper Award, Beispiel-Automatisierung 73 (2025) 2026
- 1st place, Cloud Agent Hackathon Munich, Example Cloud Services Sep 2025
- Member of technical committee 3.35 “Agents in Automation”, Fachverband Beispieltechnik (FBT) Jan 2025
